Opening: 1-2-3-5, teeter is 5. Everything twice for points.

Closing: Lowercase abcd jumps are 2 points each taken from that labeled direction. Uppercase ABCD jumps are 3 points each taken from that labeled direction. You can take them any way and in any order you like but these are the only obstacles worth points in the close.

Knocked bars in open mean jump is not available for closing points. Knocked bars in close are 0 points. Any obstacle taken outside the pattern is 0 points. No limit on number of times you can repeat the jumps, but you cannot do the same jump back to back - you will get 0 points for the repeated same jump. Each partial second over your finish time will deduct a point from your score.
