

RV and Overnight Information

General Information

Camp hosts are Linda and Robert Greene (510-468-1334).

Assigned Camp Sites

Camp sites have been **pre-assigned**. The Master list of assignments and a RV Map of the Fairgrounds were provided by email/online. Copies will be available at check-in if needed.

****Driving and Parking Warning ** due to heavy rains and continued possible showers**

All driving of vehicles **MUST** be on the asphalt roads. If you have a trailer you may back into your site or pull straight in and stop. A minimum of movement should take place on the grass.

We are making every effort to provide parking on the grass but it is your responsibility to be assured that the site you are going into can handle the weight and size of your rig.

There is plenty of room we may just need to relocate your rig to a place on the asphalt.

Parking Permits

There is a Check-In table at the Host Camp Site on the south wall #12 (on your right as you enter the fairgrounds parking area. Please pick-up your Parking Permits before you park. The permit must be displayed at all times in all vehicles associated with your site.

Locating and Parking at the Site

Each site has an orange flag with a number. This flag represents the left edge of your site. It should be on the left side as you face the site. This provides the ability of the driver to view the flag as they enter the site. There may be spray paint designating your exact parking spot.

Tents and Vehicles without Utilities

The Tent and small vehicle overnight campers not using utilities have assigned sites. Large vehicle without utilities such as trailers, A or B/C have been assigned an area away from the tents.

Generators

Anyone using a generator must have an exhaust pipe from the generator to a spot over the roof of the RV.

Towed & Extra Vehicle Parking

If the vehicle doesn't fit within your site it can be parked in the area on the east side of the Open Arena (see map). Trailers and 5th wheels may need to unhook and park separately.

Morning arrivals during the show days should realize that all vehicles must be on site and parked by 7:30am. Follow the normal check-in procedure.

Wednesday Arrivals

Wednesday at **3pm** is the time we will open the gates for RV and camper overnight parking.

Thursday/Friday/Saturday

If you are going to be arriving **during the show** you will need to be prepared to **wait outside** until the show is finished for the day. If the outside parking lot is full use the lot across the street from the fairgrounds. **DO NOT** enter while the show is in progress.

When the show has completed for the day we will permit access to the grounds and you can follow the normal check-in procedure.

Exiting the Fairgrounds

Each afternoon and evening there will be some people leaving the show. The rear gate will be opened so that you can depart without disturbing other people.

On Sunday there will be many people leaving the show. The rear exit will again be open so that the RV's and overnight campers can leave and not be in conflict with the day timers dismantling their setups.

Utilities

Every attempt is being made to provide the electrical connections requested. But, we are not responsible for the fairground facility and it is possible that you could need to use a different amperage, (30 rather than 50, 20 rather than 30) than requested so please bring any and all converters that you have. A long extension cord could be necessary.

Water and sewer are scarce. There will be a place you can take on water and dump if that is necessary

Showers

The showers occasionally run out of hot water. It would be best if you conserved hot water so there will be more to go around. Also, if possible you may want to shower throughout the day so that there isn't a line.

Other Users of the Fairgrounds

During the week Wed. Thurs. and Friday there is a school that uses one of the fairgrounds buildings. At recess the children play in the north area and sometimes wander the grounds. On Saturday afternoon and evening there will be activities in the buildings on Vacaville Way.
